

# AG HELP WANTED

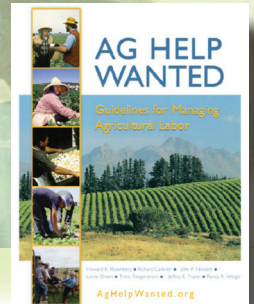

## Essentials for the Manager

*Managing agricultural labor depends on three sets of intelligences: (1) external factors, (2) techniques, and (3) nature of the manager and the managed.*

## Understanding

laws, labor market conditions, and advocacy groups can be dubbed “environmental intelligence.” Command of techniques for organizing information to support principled decisions is “technical intelligence.” And awareness of personal needs, values, learning processes, and behavior is “emotional intelligence.”
