

# AG HELP WANTED

## Functions of Management

*Success as an agricultural business operator takes more than the knowledge and tools farmers have traditionally used.*

**Managers** generally perform the following five broad functions, which result in other people carrying out work: 1. Planning; 2. Organizing; 3. Staffing; 4. Leading; and 5. Controlling-Assessing results against objectives, seeing what was actually done compared to what had been planned, and taking corrective action where required.
