

Ag in Uncertain Times

AG IN UNCERTAIN TIMES uses current technologies to assemble panels of speakers addressing major risk topic areas. The team utilizes evolving and recently available technologies to optimize the impact and reach of AIUT programming efforts. Starting in 2009, 30 English and 5 Spanish webinars featuring 133 individual presentations have been offered by a roster of nationally-recognized speakers. Recordings, podcasts (MP3), handouts, links and much more for every program offered are available on the site at no charge.
